

Catu Insulated Gloves IEC 60903/EN 60903

Product Information

CATU electric insulating gloves provide effective individual protection for anyone required to work on live voltages or perform operations on or in proximity to electric installations. Each pair of CATU gloves is tested individually, Dielectric tests. To offer more services, CATU innovates by providing individual traceability for its entire range of insulating gloves.

Features

- Compliant with the IEC 60903/EN 60903 standard
- Perfectly designed for all hand types. Soft, flexible and strong, they allow great dexterity.
- Class 0 through to Class 4 with a wide range of sizes from 7 to 12
- Bi-colour gloves on class 1/2/3/4 allows to quickly detect any abrasion, cut or other mechanical surface damage that could alter the dielectric properties of the glove.
- Clear, durable marking with colour per class.
- Flash-code Traceability provides access to read the gloves test reports.
- Rolled cuff For greater comfort and ease of use.
