

Load Units/Meter Testers – Single Phase

Tmac® 5 A Load Unit

A portable device for creating a temporary load on a single-phase meter to determine correct operation.

Specifications

Category Rating:	CAT IV 300V
Input Voltage:	240 V 50 Hz
Power Consumption:	1200 W
Pollution Class:	IP 20
Carry Bag:	PVC Reinforced bag with detachable Velcro pocket
Test Leads:	Double insulated Silicone Leads

Part No: MLU-1PH-A

Tmac® 9 A Load Unit

A portable device for creating a temporary load on a single-phase meter to determine correct operation.

Specifications

Category Rating:	CAT IV 300V
Input Voltage:	240 V 50 Hz
Power Consumption:	2400 W
Pollution Class:	IP 20
Carry Bag:	PVC Reinforced bag with detachable Velcro pocket
Test Leads:	Double insulated Silicone Leads

Part No: MLU-1PH-9A
